

EXERTIONAL HEAT ILLNESS

| RMA ID Number | Reference List for RMA460-1 as at February 2022 |
|---------------|---|
|---------------|---|

| | |
|--------|--|
| 102213 | Alele F, Malau-Aduli B, Malau-Aduli A, et al (2020). Systematic review of gender differences in the epidemiology and risk factors of exertional heat illness and heat tolerance in the armed forces. <i>BMJ Open</i> , 10(4): e031825. |
| 102204 | Alele FO, Malau-Aduli BS, Malau-Aduli AE, et al (2020). Epidemiology of exertional heat illness in the military: A systematic review of observational studies. <i>Int J Environ Res Public Health</i> , 17(19): 7037. |
| 102226 | Ashworth ET, Cotter JD, Kilding AE (2020). Methods for improving thermal tolerance in military personnel prior to deployment. <i>Mil Med Res</i> , 7(1): 58. |
| 102206 | Bai L, Ding G, Gu S, et al (2014). The effects of summer temperature and heat waves on heat-related illness in a coastal city of China, 2011-2013. <i>Environ Res</i> , 132: 212-9. |
| 102203 | Barnes SR, Ambrose JF, Maule AL, et al (2019). Incidence, timing, and seasonal patterns of heat illnesses during U.S. Army basic combat training, 2014-2018. <i>MSMR</i> , 26(4): 7-14. |
| 102202 | Belval LN, Giersch GE, Adams WM, et al (2020). Age- and sex-based differences in exertional heat stroke incidence in a 7-mile road race. <i>J Athl Train</i> , 55(12): 1224-9. |
| 102194 | Bongers KS, Salahudeen MS, Peterson GM (2020). Drug-associated non-pyrogenic hyperthermia: a narrative review. <i>Eur J Clin Pharmacol</i> , 76(1): 9-16. |
| 102223 | Bouchama A, Dehbi M, Mohamed G, et al (2007). Prognostic factors in heat wave related deaths: a meta-analysis. <i>Arch Intern Med</i> , 167(20): 2170-6. |
| 102207 | Brennenstuhl H, Will M, Ries E, et al (2021). Patterns of extreme temperature-related catastrophic events in Europe including the Russian Federation: a cross-sectional analysis of the Emergency Events Database. <i>BMJ Open</i> , 11(6): e046359. |
| 102232 | Danzl DF (2018). Heat-related illnesses. <i>Harrison's Principles of Internal Medicine</i> , 20th Edition, Chapter 455. McGraw Hill. |
| 102197 | Dinarello CA, Porat R (2018). Fever. <i>Harrison's Principles of Internal Medicine</i> , 20th Edition, McGraw Hill. |
| 102227 | Dineen SM, Ward JA, Leon LR (2021). Prior viral illness increases heat stroke severity in mice. <i>Exp Physiol</i> , 106(1): 244-57. |
