Repatriation Medical Authority

EXPLANATORY STATEMENT

**STATEMENT OF PRINCIPLES CONCERNING
SCHIZOPHRENIA
(BALANCE OF PROBABILITIES) (NO. 84 OF 2016)**

VETERANS' ENTITLEMENTS ACT 1986
MILITARY REHABILITATION AND COMPENSATION ACT 2004

1. This is the Explanatory Statement to the *Statement of Principles concerning schizophrenia (Balance of Probabilities)* (No. 84 of 2016).

Background

2. The Repatriation Medical Authority (the Authority), under subsection 196B(8) of the *Veterans' Entitlements Act 1986* (the VEA), revokes Instrument No. 16 of 2009 determined under subsection 196B(3) of the VEA concerning **schizophrenia**.
3. The Authority is of the view that there is sound medical-scientific evidence that indicates that **schizophrenia** and **death from schizophrenia** can be related to particular kinds of service. The Authority has therefore determined pursuant to subsection 196B(3) of the VEA a Statement of Principles concerning **schizophrenia** (Balance of Probabilities) (No. 84 of 2016). This Instrument will in effect replace the revoked Statement of Principles.

Purpose and Operation

4. The Statement of Principles will be applied in determining claims under the VEA and the *Military Rehabilitation and Compensation Act 2004* (the MRCA).
5. The Statement of Principles sets out the factors that must exist, and which of those factors must be related to the following kinds of service rendered by a person:
 - eligible war service (other than operational service) under the VEA;
 - defence service (other than hazardous service and British nuclear test defence service) under the VEA;
 - peacetime service under the MRCA,

before it can be said that, on the balance of probabilities, schizophrenia or death from schizophrenia is connected with the circumstances of that service. The Statement of Principles has been determined for the purposes of both the VEA and the MRCA.

6. This Instrument results from an investigation notified by the Authority in the Government Notices Gazette of 2 July 2015 concerning schizophrenia in accordance with section 196G of the VEA. The investigation involved an examination of the sound medical-scientific evidence now available to the Authority, including the sound medical-scientific evidence it has previously considered.
7. The contents of this Instrument are in similar terms as the revoked Instrument. Comparing this Instrument and the revoked Instrument, the differences include:

- adopting the latest revised Instrument format, which commenced in 2015;
- specifying a day of commencement for the Instrument in section 2;
- revising the definition of 'schizophrenia' in subsection 7(2);
- revising the reference to 'ICD-10-AM code' in subsection 7(4);
- revising the factor in subsection 9(1) concerning 'severe childhood abuse';
- new factor in subsection 9(2) concerning 'category 1A stressor';
- new factor in subsection 9(3) concerning 'category 1B stressor';
- revising the factor in subsection 9(5) concerning 'substance use disorder, involving cannabis';
- revising the factor in subsection 9(6) concerning 'cannabis';
- revising the factor in subsection 9(12) concerning 'taking a drug or a drug from a class of drugs';
- revising the factor in subsection 9(13) concerning 'ceased, reduced or changed antipsychotic drug therapy';
- revising the factor in subsection 9(14) concerning 'a clinically significant disorder of mental health';
- deleting the factor concerning 'death of a parent';
- deleting the factor concerning 'severe childhood abuse', for clinical worsening only;
- deleting the factors concerning 'drug dependence or drug abuse' and 'alcohol dependence or alcohol abuse' as these factors are now covered by the factor in subsection 9(14) concerning 'a clinically significant disorder of mental health';
- new definitions of 'clinically significant disorder of mental health as specified', 'DSM-5', 'MRCA', 'Specified List 1 of drugs', 'Specified List 2 of drugs' and 'VEA' in Schedule 1 - Dictionary;
- revising the definitions of 'category 1A stressor', 'inhalants' and 'relevant service' in Schedule 1 - Dictionary; and
- deleting the definitions of 'a clinically significant psychiatric condition', 'a drug or a drug from the class of drugs in specified list 1', 'DSM-IV-TR', 'early death of a parent' and 'early-onset drug dependence or early-onset drug abuse, involving cannabis'.

Incorporation

8. This Instrument incorporates by reference the *Diagnostic and Statistical Manual of Mental Disorders*, Fifth Edition (DSM-5), Arlington, VA, American Psychiatric Association, 2013. A copy of this document is available from the offices of the Repatriation Medical Authority, Level 8, Bank of Queensland Building, 259 Queen St, Brisbane, Queensland 4000, by contacting the Registrar on telephone (07) 3815 9404.

Consultation

9. Prior to determining this Instrument, the Authority advertised its intention to undertake an investigation in relation to schizophrenia in the Government Notices Gazette of 2 July 2015, and circulated a copy of the notice of intention to investigate to a wide range of organisations representing veterans, service personnel and their dependants. The Authority invited submissions from the Repatriation Commission, organisations and persons referred to in section 196E of the VEA, and any person having expertise in the field. Two submissions were received for consideration by the Authority during the investigation.

10. On 16 June 2016, the Authority wrote to organisations representing veterans, service personnel and their dependants regarding the proposed Instrument and the medical-scientific material considered by the Authority. This letter emphasised the deletion of factors relating to *death of a parent* and *severe childhood abuse*, for clinical worsening only. The Authority provided an opportunity to the organisations to make representations in relation to the proposed Instrument prior to its determination. No submissions were received for consideration by the Authority. Minor formatting changes were made to the proposed Instrument following this consultation process.

Human Rights

11. This instrument is compatible with the Human Rights and Freedoms recognised or declared in the International Instruments listed in Section 3 of the *Human Rights (Parliamentary Scrutiny) Act 2011*. A Statement of Compatibility with Human Rights follows.

Finalisation of Investigation

12. The determining of this Instrument finalises the investigation in relation to schizophrenia as advertised in the Government Notices Gazette of 2 July 2015.

References

13. A list of references relating to the above condition is available to any person or organisation referred to in subsection 196E(1)(a) to (c) of the VEA. Any such request must be made in writing to the Repatriation Medical Authority at the following address:

Statement of Compatibility with Human Rights

(Prepared in accordance with Part 3 of the Human Rights (Parliamentary Scrutiny) Act 2011)

Instrument No.: **Statement of Principles No. 84 of 2016**

Kind of Injury, Disease or Death: **Schizophrenia**

This Legislative Instrument is compatible with the human rights and freedoms recognised or declared in the international instruments listed in section 3 of the *Human Rights (Parliamentary Scrutiny) Act 2011*.

Overview of the Legislative Instrument

1. This Legislative Instrument is determined pursuant to subsection 196B(8) of the *Veterans' Entitlements Act 1986* (the VEA) for the purposes of the VEA and the *Military Rehabilitation and Compensation Act 2004* (the MRCA).
2. This Legislative Instrument:-
 - facilitates claimants in making, and the Repatriation Commission in assessing, claims under the VEA and the MRCA respectively, by specifying the circumstances in which medical treatment and compensation can be extended to eligible persons who have schizophrenia;
 - facilitates the review of such decisions by the Veterans' Review Board and the Administrative Appeals Tribunal;
 - outlines the factors which the current sound medical-scientific evidence indicates must exist before it can be said that, on the balance of probabilities, schizophrenia is connected with the circumstances of eligible service rendered by a person, as set out in clause 5 of the Explanatory Statement;
 - replaces Instrument No. 16 of 2009; and
 - reflects developments in the available sound medical-scientific evidence concerning schizophrenia which have occurred since that earlier instrument was determined.
3. The Instrument is assessed as being a technical instrument which improves the medico-scientific quality of outcomes under the VEA and the MRCA.

Human Rights Implications

4. This Legislative Instrument does not derogate from any human rights. It promotes the human rights of veterans, current and former Defence Force members as well as other persons such as their dependents, including:
 - the right to social security (Art 9, *International Covenant on Economic, Social and Cultural Rights*; Art 26, *Convention on the Rights of the Child* and Art 28, *Convention*

on the Rights of Persons with Disabilities) by helping to ensure that the qualifying conditions for the benefit are 'reasonable, proportionate and transparent'¹;

- the right to an adequate standard of living (Art 11, ICSECR; Art 27, CRC and Art 28, CRPD) by facilitating the assessment and determination of social security benefits;
- the right to the enjoyment of the highest attainable standard of physical and mental health (Art 12, ICSECR and Art 25, CRPD), by facilitating the assessment and determination of compensation and benefits in relation to the treatment and rehabilitation of veterans and Defence Force members;
- the rights of persons with disabilities by facilitating the determination of claims relating to treatment and rehabilitation (Art 26, CRPD); and
- ensuring that those rights "will be exercised without discrimination of any kind as to race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status" (Art 2, ICESCR).

Conclusion

This Legislative Instrument is compatible with human rights as it does not derogate from and promotes a number of human rights.

Repatriation Medical Authority

¹ In General Comment No. 19 (The right to social security), the Committee on Economic, Social and Cultural Rights said (at paragraph 24) this to be one of the elements of ensuring accessibility to social security.
