CHARCOT-MARIE-TOOTH DISEASE

No. 21 of 2015

for the purposes of the

Veterans' Entitlements Act 1986
and

Military Rehabilitation and Compensation Act 2004

Title

1. This Instrument may be cited as Statement of Principles concerning Charcot-Marie-Tooth disease No. 21 of 2015.

Determination

2. The Repatriation Medical Authority under subsection **196B(2)** and **(8)** of the *Veterans' Entitlements Act 1986* (the VEA):
 - (a) revokes Instrument No. 9 of 2007 concerning Charcot-Marie-Tooth disease; and
 - (b) determines in its place this Statement of Principles.

Kind of injury, disease or death

3.
 - (a) This Statement of Principles is about **Charcot-Marie-Tooth disease** and **death from Charcot-Marie-Tooth disease**.
 - (b) For the purposes of this Statement of Principles, "**Charcot-Marie-Tooth disease**" means one of a group of genetic disorders of myelin structure or function, characterised by distinct peripheral neuropathies which are manifested clinically by muscle atrophy, weakness and sensory abnormalities.
 - (c) Charcot-Marie-Tooth disease attracts ICD-10-AM code G60.0.

- (d) In the application of this Statement of Principles, the definition of "**Charcot-Marie-Tooth disease**" is that given at paragraph 3(b) above.

Basis for determining the factors

4. The Repatriation Medical Authority is of the view that there is sound medical-scientific evidence that indicates that **Charcot-Marie-Tooth disease** and **death from Charcot-Marie-Tooth disease** can be related to relevant service rendered by veterans, members of Peacekeeping Forces, or members of the Forces under the VEA, or members under the *Military Rehabilitation and Compensation Act 2004* (the MRCA).

Factors that must be related to service

5. Subject to clause 7, at least one of the factors set out in clause 6 must be related to the relevant service rendered by the person.

Factors

6. The factor that must as a minimum exist before it can be said that a reasonable hypothesis has been raised connecting **Charcot-Marie-Tooth disease** or **death from Charcot-Marie-Tooth disease** with the circumstances of a person's relevant service is:
- (a) being treated with a drug or a drug from a class of drugs from the specified list, for a condition for which the drug cannot be ceased or substituted, at the time of the clinical worsening of Charcot-Marie-Tooth disease; or
 - (b) inability to obtain appropriate clinical management for Charcot-Marie-Tooth disease.

Factors that apply only to material contribution or aggravation

7. Paragraphs **6(a)** and **6(b)** apply only to material contribution to, or aggravation of, Charcot-Marie-Tooth disease where the person's Charcot-Marie-Tooth disease was suffered or contracted before or during (but not arising out of) the person's relevant service.

Inclusion of Statements of Principles

8. In this Statement of Principles if a relevant factor applies and that factor includes an injury or disease in respect of which there is a Statement of Principles then the factors in that last mentioned Statement of Principles apply in accordance with the terms of that Statement of Principles as in force from time to time.
