

SUMMARY OF CHANGES:

INSTRUMENT NOS. 99 to 104 of 2021

Statements of Principles Nos. 99 to 104 of 2021 were signed by the Chairperson of the Repatriation Medical Authority (the Authority) on 1 October 2021. The day of commencement as specified in each of these Instruments is 1 November 2021.

These Instruments have been lodged and registered with the Federal Register of Legislation, pursuant to section 15G of the *Legislation Act 2003* (Legislation Act). In accordance with the Legislation Act, the Office of Parliamentary Counsel must generally deliver a legislative instrument for laying before each House of the Parliament within six sitting days of that House after the instrument is registered with the instrument's registered explanatory statement. The Instruments and the associated Explanatory Statements registered with the Federal Register of Legislation are available from http://www.legislation.gov.au.

Copies of each Instrument, the associated Explanatory Statement and a list of references relating to each Statement of Principles, are available in accordance with the *Veterans' Entitlements Act 1986* (the VEA), on the Authority's website at http://www.rma.gov.au.

The 'User Guide to the RMA Statements of Principles' explains the meaning and purpose of each section of the Statement of Principles template which commenced in 2015. This document is also available on the Authority's website at <u>http://www.rma.gov.au</u>.

SUMMARY OF CHANGES

Instr. No.	Title	Date of Commencement	ICD-10-AM Code
REPEALS			
99 & 100/2021	dental pulp and periapical disease	1/11/2021	K04
101 & 102/2021	chronic gastritis and chronic gastropathy	1/11/2021	Nil
103 & 104/2021	malignant neoplasm of the pancreas	1/11/2021	C25.0, C25.1, C25.2, C25.3, C25.7, C25.8

SUMMARY OF CHANGES				
SUMMAR 99 & 100/2021	y of changes dental pulp and periapical disease	 These Instruments result from an investigation notified by the Authority in the Government Notices Gazette of 9 March 2021 concerning <i>dental pulp and apical disease</i> in accordance with section 196G of the VEA. The investigation involved an examination of the sound medical-scientific evidence now available to the Authority, including the sound medical-scientific evidence in thas previously considered. The contents of these Instruments are in similar terms as the repealed Instruments. Comparing these Instruments and the repealed Instruments, the differences include: <i>For RH SoP (Instrument No. 99/2021)</i> adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 2; revising the name of the condition from 'dental pulp and apical disease' to 'dental pulp and periapical disease'; new definition of 'dental pulp and periapical disease' in subsection 7(2); revising the factors in subsections 9(1) and 9(10) concerning having dental caries; revising the factors in subsections 9(2) and 9(11) concerning having dental caries; revising the factors in subsections 9(5) and 9(14) concerning having grauma; revising the factors in subsections 9(5) and 9(15) concerning having smoked tobacco products; new factors in subsections 9(8) and 9(17) concerning having structures of the affected tooth, as these are now covered by the factors in subsections 9(3) and 9(12) concerning having structures of the affected tooth, as these are now covered by the factors in subsections 9(3) and 9(12) concerning having structures of the affected tooth, as these are now covered by the factors in subsections 9(3) and 9(12) concerning having structures of the affected tooth, as these are now covered by the factors in subsection 9(3) and 9(12) concerning having trauma; new factors in subsections 9(9) and 9(18) concerning having structures of the affected tooth.		
		 revising the factors in subsections 9(3) and 9(9) concerning having trauma; revising the factors in subsections 9(4) and 9(10) concerning undergoing surgery; 		
		 deleting the factors concerning having blunt injury to the supporting structures of the affected tooth, as these are now covered by the factors in subsections 9(3) and 9(9) concerning having trauma; 		

SUMMAR	SUMMARY OF CHANGES		
		 new definitions of 'dental concussion', 'luxation', 'MRCA', 'one pack-year', 'periapical abscess', 'periapical cyst', 'periapical periodontitis', 'pulpitis' 'surgery', 'trauma involving the affected tooth' and 'VEA' in Schedule 1 - Dictionary; revising the definitions of 'non-invasive dental or orthodontic procedure' and 'relevant service' in Schedule 1 - Dictionary; and deleting the definitions of 'apical abscess', 'apical cyst', 'apical periodontitis', 'pack-years of cigarettes, or the equivalent thereof in other tobacco products' and 'trauma to the region of the affected tooth'. The determining of these Instruments finalises the investigation in relation to <i>dental pulp and apical disease</i> as advertised in the Government Notices Gazette of 9 March 2021. 	
101 & 102/2021	chronic gastritis and chronic gastropathy	These Instruments result from an investigation notified by the Authority in the Government Notices Gazette of 5 January 2021 concerning <i>chronic gastritis and chronic gastropathy</i> in accordance with section 196G of the VEA. The investigation involved an examination of the sound medical-scientific evidence now available to the Authority, including the sound medical- scientific evidence it has previously considered. The contents of these Instruments are in similar terms as the repealed Instruments. Comparing	
		these Instruments and the repealed Instruments, the differences include:	
		For RH SoP (Instrument No. 101/2021)	
		 adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 2; revising the definitions of 'chronic gastritis' and 'chronic gastropathy' in subsection 7(2); revising the factors in paragraphs 9(1)(a) and 9(9)(a) concerning having a <i>Helicobacter pylori</i> infection of the gastric mucosa, for chronic gastritis only; revising the factors in paragraphs 9(1)(c) and 9(9)(b) concerning having <i>Helicobacter heilmannii sensu lato</i> infection of the gastric mucosa, for chronic gastritis only; revising the factors in paragraphs 9(1)(c) and 9(9)(c) concerning having infection of the gastric mucosa for chronic gastritis only; revising the factors in paragraphs 9(1)(c) and 9(9)(c) concerning having infection of the gastric mucosa from the specified list of infections, for chronic gastritis only; revising the factors in paragraphs 9(1)(e) and 9(9)(d) concerning being in an immunocompromised state as specified, for chronic gastritis only; revising the factors in paragraphs 9(1)(e) and 9(9)(e) concerning taking an immune checkpoint inhibitor, for chronic gastritis only; revising the factor in paragraph 9(2)(a) concerning having reflux of bile acids into the stomach, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(b) concerning taking a non-topical, non-steroidal, anti-inflammatory drug, including aspirin, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(c) concerning undergoing a course of therapeutic radiation for cancer, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(e) concerning undergoing a course of therapeutic radiation for cancer, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(f) concerning having reflux of bile acids into the stomach, for clinical onset of chronic gastr	
		 revising the factor in subsection 9(5) concerning taking a drug from the Specified List 2 of drugs, for clinical worsening; revising the factor in subsection 9(6) concerning consuming alcohol, for clinical worsening; revising the factor in subsection 9(7) concerning undergoing a course of therapeutic radiation for cancer, for clinical worsening; revising the factor in subsection 9(8) concerning having received yttrium-90 microspheres, for clinical worsening; deleting the factors concerning having received a cumulative equivalent dose of ionising 	
		 a detoting the factors concerning having received a candidative equivalent dose of forming radiation as these are covered by the factors in paragraph 9(2)(e) and subsection 9(7) concerning undergoing a course of therapeutic radiation for cancer; new definitions of 'chronic renal failure', '<i>Helicobacter heilmannii sensu lato</i>', 'immunosuppressive drug', 'MRCA', 'Specified List 1 of drugs', 'Specified List 2 of drugs', 'specified list of infections' and 'VEA' in Schedule 1 - Dictionary; 	

SUMMAR	RY OF CHANGES	
SUMMAR	RY OF CHANGES	 revising the definitions of 'immunocompromised state as specified' and 'relevant service' in Schedule 1 - Dictionary; and deleting the definitions of 'a drug or a drug from a class of drugs from Specified List 1', 'a drug or a drug from a class of drugs from Specified List 2', 'a specified infection', 'alcohol' and 'cumulative equivalent dose'. For BoP SoP (Instrument No. 102/2021) adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 2; revising the definitions of 'chronic gastritis' and 'chronic gastropathy' in subsection 7(2); revising the factors in paragraphs 9(1)(a) and 9(9)(a) concerning having a <i>Helicobacter pylori</i> infection of the gastric mucosa, for chronic gastritis only; revising the factors in paragraphs 9(1)(b) and 9(9)(b) concerning having an infection of the gastric mucosa, for chronic gastritis only; revising the factors in paragraphs 9(1)(c) and 9(9)(c) concerning having an infection of the gastric mucosa, for chronic gastritis only; revising the factors in paragraphs 9(1)(c) and 9(9)(d) concerning having an infection of the gastric mucosa for chronic gastritis only; revising the factors in paragraphs 9(1)(d) and 9(9)(d) concerning being in an immunocompromised state as specified, for chronic gastritis only; revising the factors in paragraphs 9(1)(e) and 9(9)(e) concerning taking an immune checkpoint inhibitor, for chronic gastritis only;
		 revising the factor in paragraph 9(2)(a) concerning having reflux of bile acids into the stomach, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(b) concerning taking a non-topical, non-steroidal, anti-inflammatory drug, including aspirin, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(c) concerning taking a drug from the Specified List 1 of drugs, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(d) concerning consuming an average of at least 350 grams of alcohol, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(e) concerning undergoing a course of therapeutic radiation for cancer, for clinical onset of chronic gastropathy only; revising the factor in paragraph 9(2)(f) concerning having received yttrium-90 microspheres, for clinical onset of chronic gastropathy only; revising the factor in subsection 9(3) concerning having reflux of bile acids into the stomach, for clinical worsening; revising the factor in subsection 9(5) concerning taking a drug from the Specified List 2 of drugs, for clinical worsening; revising the factor in subsection 9(6) concerning taking a drug from the Specified List 2 of drugs, for clinical worsening;
		 revising the factor in subsection 9(7) concerning undergoing a course of therapeutic radiation for cancer, for clinical worsening; revising the factor in subsection 9(8) concerning having received yttrium-90 microspheres, for clinical worsening; deleting the factors concerning having received a cumulative equivalent dose of ionising radiation, as these are covered by the factors in paragraph 9(2)(e) and subsection 9(7) concerning undergoing a course of therapeutic radiation for cancer; new definitions of 'chronic renal failure', 'Helicobacter heilmannii sensu lato', 'immunosuppressive drug', 'MRCA', 'Specified List 1 of drugs', 'Specified List 2 of drugs', 'specified list of infections' and 'VEA' in Schedule 1 - Dictionary; revising the definitions of 'a drug or a drug from a class of drugs from Specified List 1', 'a drug or a drug from a class of drugs from Specified List 1', 'a drug or a drug from a class of drugs from Specified List 1', 'a drug or a drug from a class of drugs from Specified List 1', 'a drug or a drug from a class of drugs from Specified I infection', 'alcohol' and 'cumulative equivalent dose'.
103 & 104/2021	malignant neoplasm of the pancreas	These Instruments result from an investigation notified by the Authority in the Government Notices Gazette of 9 March 2021 concerning <i>malignant neoplasm of the pancreas</i> in accordance with section 196G of the VEA. The investigation involved an examination of the sound medical-scientific evidence now available to the Authority, including the sound medical-scientific evidence it has previously considered.

 The contents of these Instruments are in similar terms as the repealed Instruments. Comparin these Instruments and the repealed Instruments, the differences include: For RHI SOP (Instrument No. 103/2021) adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 2; revising the factor in subsection 9(1) concerning having smoked tobacco products, 1 clinical onset only; revising the factor in subsection 9(2) concerning the oral use of smokeless tobacco, 1 clinical onset only; revising the factor in subsection 9(3) concerning baving smoked tobacco products, 1 clinical onset only; revising the factor in subsection 9(3) concerning baving received ionising radiation to 1 panereas, from internal deposition of 7) concerning inhaling, ingesting or having cutaneo contact with DDT, for clinical onset only; revising the factor in subsection 9(1) concerning having received ionising radiation to 1 panereas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis B virus, 1 clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis C virus, 1 clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis C virus, 1 clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis C virus, 1 clinical onset only; new factor in subsection 9(1) concerning having indextor in 2015; specifying a day of commencement for the Instrument in section 2; revising the definitions of 'bining obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; and deleting the definition of 'baling obese' and 'pack-years of cigarettes, or the equivale theree' in sothercoules'. Fo		
 these Instruments and the repealed Instruments, the differences include: For RH SoP (Instrument No. 103/2021) adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 2; revising the efference to 'ICD-10-AM code' in subsection 7(4); revising the factor in subsection 9(1) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning the oral use of smokeless tobacco, 1 clinical onset only; revising the factor in subsection 9(3) concerning being overweight or obese, for clinic onset only; revising the factor in subsection 9(7) concerning inhaling, ingesting or having cutance content with DDT. for clinical onset only; revising the factor in subsection 9(6) concerning having received ionising radiation to t pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis B virus, 1 clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis C virus, 1 clinical onset only; new definitions of being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; and delinitions of 'being obset' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. For Bord SoP (Instrument No. 104/2021) adopting the factor in subsection 9(2) concerning having smoked tobacco roducts, findering definitions of 'heing obset' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. 	SUMMARY OF CHANGES	
 adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in subsection 7(2); revising the fittion of "malignant neoplasm of the pancreas' in subsection 7(2); revising the factor in subsection 9(1) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning he oral use of smokeless tobacco, f clinical onset only; revising the factor in subsection 9(3) concerning heing overweight or obese, for clinic onset only; revising the factor in subsection 9(3) concerning intaling, ingesting or having cutanco context with DDT. for clinical onset only; revising the factor in subsection 9(1) concerning having received ionising radiation to t pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(12) concerning having infection with hepatitis C virus, 1 clinical onset only; new factor in subsection 9(12) concerning having infection with hepatitis C virus, 1 clinical onset only; new definitions of being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; revising the definitions of 'hinaling, ingesting or having cutaneous contact with DDT a 'relevant service' in Schedule 1 - Dictionary; and deleting the definitions of 'hinaling obese' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. <i>For BoP SoP (Instrument No. 104/2021)</i> adopting the latest revised Instrument format, which commenced in 2015; specifying a		
 specifying a day of commencement for the Instrument in section 2; revising the definition of 'malignant neoplasm of the pancreas' in subsection 7(2); revising the reference to 'ICD-10-AM code' in subsection 7(4); revising the factor in subsection 9(1) concerning having smoked tobacco products, 1 clinical onset only; revising the factor in subsection 9(3) concerning being overweight or obese, for clinic onset only; revising the factor in subsection 9(3) concerning having gesting or having cutance contact with DDT, for clinical onset only; revising the factor in subsection 9(7) concerning having received ionising radiation to t pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(1) concerning having utaneous contact with DDT, with subsection 9(1) concerning having utaneous contact only; new factor in subsection 9(1) concerning having infection with hepatitis C virus, f clinical onset only; new definitions of 'being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; revising the definitions of 'bring obese' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. <i>For BoP SOP (Instrument No. 104/2021)</i> adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 2; revising the factor in subsection 9(1) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning having moded tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning having smoked tobacco produ		For RH SoP (Instrument No. 103/2021)
 revising the definition of 'malignant neoplasm of the pancreas' in subsection 7(2); revising the factor in subsection 9(1) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(3) concerning being overweight or obese, for clinical onset only; revising the factor in subsection 9(3) concerning having smoked tobacco products of revising the factor in subsection 9(7) concerning having acute pancreatitis, for clinical onset only; new factor in subsection 9(7) concerning having meeting or having cutance contact with DDT, for clinical onset only; revising the factor in subsection 9(9) concerning having meeting or having cutance contact with DDT, for clinical onset only; revising the factor in subsection 9(9) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(11) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(12) concerning having cutancous contact with DDT a velocity of vinal ones of 'being overweight or obese', 'BMF, 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; and deleting the definitions of 'inhaling, ingesting or having cutaneous contact with DDT a 'relevant service' in Schedule 1 - Dictionary; and deleting the definition of 'malignant neoplasm of the pancreas' in subsection 7(2); revising the definition of 'malignant neoplasm of the pancreas' in subsection 7(2); revising the factor in subsection 9(2) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(1) concerning having cutaneous contact with DDT a 'relevant service' in Schedule 1 - Dictionary; and deleting the definition of 'malignant neoplasm of the pancreas' in subsection 7(2); revising the factor in subsection 9(1) concerning having smoke		• adopting the latest revised Instrument format, which commenced in 2015;
 revising the reference to 'ICD-10-AM code' in subsection 7(4); revising the factor in subsection 9(1) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning the oral use of smokeless tobacco, f clinic onset only; revising the factor in subsection 9(3) concerning inhaling, ingesting or having cutaneo contact with DDT, for clinical onset only; revising the factor in subsection 9(0) concerning inhaling, ingesting or having cutaneo contact with DDT, for clinical onset only; revising the factor in subsection 9(0) concerning having received ionising radiation to t pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(11) concerning having infection with hepatitis B virus, 1 clinical onset only; new factor in subsection 9(12) concerning having cutaneous contact with DDT an clinical onset only; new definitions of 'being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; revising the definitions of 'being obese' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. <i>For BoP SoP (Instrument No. 104/2021)</i> adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument' in subsection 7(2); revising the factor in subsection 9(2) concerning having smoked tobacco products, for clinical onset only; revising the factor in subsection 9(2) concerning having smoked tobacco products, for clinical onset only; 		• specifying a day of commencement for the Instrument in section 2;
 revising the factor in subsection 9(1) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning the oral use of smokeless tobacco, f clinical onset only; revising the factor in subsection 9(3) concerning baving acute pancreatitis, for clinical onset only; new factor in subsection 9(6) concerning having acute pancreatitis, for clinical onset only; revising the factor in subsection 9(7) concerning having received ionising radiation to f pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(1) concerning having infection with hepatitis C virus, f clinical onset only; new factor in subsection 9(1) concerning having cutaneous contact with DDT a relation sof 'being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; and deleting the definitions of 'being obese' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. <i>For BoP SoP (Instrument No. 104/2021)</i> adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement of the Instrument in section 2(2); revising the factor in subsection 9(2) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning having cutaneous contact with DDT a 'relevant service' in subsection 9(2) concerning having smoked tobacco products, f clinical onset only; revising the factor in subsection 9(2) concerning having smoked tobacco, f clinical onset only; <li< th=""><th></th><th></th></li<>		
 clinical onset only; revising the factor in subsection 9(2) concerning the oral use of smokeless tobacco, f clinical onset only; revising the factor in subsection 9(3) concerning being overweight or obese, for clinic onset only; new factor in subsection 9(6) concerning having acute pancreatitis, for clinical onset only; revising the factor in subsection 9(7) concerning inhaling, ingesting or having cutance contact with DDT, for clinical onset only; revising the factor in subsection 9(9) concerning having received ionising radiation to t pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(11) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(12) concerning having infection with hepatitis C virus, f clinical onset only; new definitions of 'being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; revising the definitions of 'inhaling, ingesting or having cutaneous contact with DDT a 'relevant service' in Schedule 1 - Dictionary; and deleting the definitions of 'being obese' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'. <i>For BoP SoP (Instrument No. 104/2021)</i> adopting the latest revised Instrument format, which commenced in 2015; specifying a day of commencement for the Instrument in section 7(2); revising the factor in subsection 9(1) concerning having sonked tobacco products, clinical onset only; revising the factor in subsection 9(2) concerning having sonkeless tobacco, f clinical onset only; revising the factor in subsection 9(2) concerning having sonkel tobacco products, clinical onset only; revising the factor in subsection 9(3) concerning having nokeless tobacco, f clinical onset only; revising the factor in subsect		
 clinical onset only; revising the factor in subsection 9(3) concerning being overweight or obese, for clinic onset only; new factor in subsection 9(6) concerning having acute pancreatitis, for clinical onset only; revising the factor in subsection 9(7) concerning inhaling, ingesting or having cutaneo contact with DDT, for clinical onset only; revising the factor in subsection 9(9) concerning having received ionising radiation to t pancreas, from internal deposition of a therapeutic or diagnostic substance which em alpha particles, for clinical onset only; new factor in subsection 9(11) concerning having infection with hepatitis B virus, f clinical onset only; new factor in subsection 9(12) concerning having infection with hepatitis C virus, f clinical onset only; new factor in subsection 9(12) concerning having cutaneous contact with DDT a "relevant service" in Schedule 1 - Dictionary; and deleting the definitions of "being overweight or obese', 'BMI', 'MRCA', 'one pack-year' and 'VE in Schedule 1 - Dictionary; and deleting the definitions of 'being obese' and 'pack-years of cigarettes, or the equivale thereof in other tobacco products'.
