

Australian Government
Repatriation Medical Authority

EXPLANATORY STATEMENT

**STATEMENT OF PRINCIPLES CONCERNING
CHILBLAINS
(REASONABLE HYPOTHESIS) (NO. 66 OF 2026)**

MILITARY REHABILITATION AND COMPENSATION ACT 2004

1. This is the Explanatory Statement to the *Statement of Principles concerning chilblains (Reasonable Hypothesis)* (No. 66 of 2026).

Background

2. The Repatriation Medical Authority (the Authority), under section 370CG of the *Military Rehabilitation and Compensation Act 2004* (the MRCA), repeals Instrument No. 29 of 2018 (Federal Register of Legislation No. F2018L00198) determined under section 370CB of the MRCA concerning chilblains.
3. The Authority is of the view that there is sound medical-scientific evidence that indicates that chilblains and death from chilblains can be related to particular kinds of service. The Authority has therefore determined pursuant to section 370CB of the MRCA a Statement of Principles concerning chilblains (Reasonable Hypothesis) (No. 66 of 2026). This Instrument will in effect replace the repealed Statement of Principles.

Purpose and Operation

4. The Statement of Principles will be applied in determining claims under the MRCA.
5. The Statement of Principles sets out the factors that must as a minimum exist, and which of those factors must be related to the following kinds of service rendered by a person:
 - hazardous service;
 - British nuclear test defence service;
 - warlike service;
 - non-warlike service

before it can be said that a reasonable hypothesis has been raised connecting chilblains or death from chilblains, with the circumstances of that service. The Statement of Principles has been determined for the purposes of the MRCA.

6. This Instrument results from an investigation notified by the Authority in the Government Notices Gazette of 28 August 2025 concerning chilblains in accordance with section 370CJ of the MRCA. The investigation involved an examination of the sound medical-scientific evidence now available to the Authority, including the sound medical-scientific evidence it has previously considered.
7. The contents of this Instrument are in similar terms as the repealed Instrument. Comparing this Instrument and the repealed Instrument, the differences include:

- adopting the latest revised Instrument format, which commenced in July 2026;
- specifying a day of commencement for the Instrument in section 2;
- revising the definition of 'chilblains' in subsection 7(2);
- revising the factor in subsection 9(1) concerning exposing the affected part of the body to certain temperatures before clinical onset only;
- revising the factor in subsection 9(2) concerning inability to obtain appropriate clinical management before clinical worsening only;
- deleting the factor concerning having a disease from the specified list of diseases at the time of clinical onset only;
- deleting the factor concerning having a BMI of less than 21 at the time of clinical onset only; and
- deleting the definitions of 'BMI', 'specified list of diseases' and 'VEA'.

Incorporation

8. This Instrument refers to *The International Statistical Classification of Diseases and Related Health Problems, Tenth Revision, Australian Modification* (ICD-10-AM), Tenth Edition, effective date of 1 July 2017, copyrighted by the Independent Hospital Pricing Authority, ISBN 978-1-76007-296-4.

The reference to the ICD-10-AM in this instrument is included for contextual and explanatory purposes only. Although not incorporated by reference, information about the ICD-10-AM can be obtained upon application in writing to the Repatriation Medical Authority either via our email address info@rma.gov.au, or via post to GPO Box 1014, Brisbane, Queensland 4001.

Consultation

9. Prior to determining this Instrument, the Authority advertised its intention to undertake an investigation in relation to chilblains in the Government Notices Gazette of 28 April 2025, and circulated a copy of the notice of intention to investigate to a wide range of organisations representing veterans, service personnel and their dependants. The Authority invited submissions from the Repatriation Commission, organisations and persons referred to in section 370CH of the MRCA, and any person having expertise in the field. No submissions were received for consideration by the Authority in relation to the investigation.
10. On 24 April 2024, the Authority wrote to organisations representing veterans, service personnel and their dependants regarding the proposed Instrument and the medical-scientific material considered by the Authority. This letter emphasised the deletion of factors relating to *having a disease from the specified list of diseases and having a BMI of less than 21*. The Authority provided an opportunity to the organisations to make representations in relation to the proposed Instrument prior to its determination. No submissions were received for consideration by the Authority. No changes were made to the proposed Instrument following this consultation process.

Human Rights

11. This instrument is compatible with the Human Rights and Freedoms recognised or declared in the International Instruments listed in Section 3 of the *Human Rights (Parliamentary Scrutiny) Act 2011*. A Statement of Compatibility with Human Rights follows.

Finalisation of Investigation

12. The determining of this Instrument finalises the investigation in relation to chilblains as advertised in the Government Notices Gazette of 28 April 2025.

Statement of Compatibility with Human Rights

(Prepared in accordance with Part 3 of the Human Rights (Parliamentary Scrutiny) Act 2011)

Instrument No.: **Statement of Principles No. 66 of 2026**

Kind of Injury, Disease or Death: **Chilblains**

This Legislative Instrument is compatible with the human rights and freedoms recognised or declared in the international instruments listed in section 3 of the *Human Rights (Parliamentary Scrutiny) Act 2011*.

Overview of the Legislative Instrument

1. This Legislative Instrument is determined pursuant to section 370CB of the *Military Rehabilitation and Compensation Act 2004* (the MRCA) for the purposes of the MRCA. Chapter 9A of the MRCA requires the determination of these instruments outlining the factors connecting particular kinds of injury, disease or death with service such being determined solely on the available sound medical-scientific evidence.
2. This Legislative Instrument:-
 - facilitates claimants in making, and the Repatriation Commission in assessing, claims under the MRCA by specifying the circumstances in which medical treatment and compensation can be extended to eligible persons who have chilblains;
 - facilitates the review of such decisions by the Veterans' Review Board and the Administrative Review Tribunal;
 - outlines the factors which the current sound medical-scientific evidence indicates must as a minimum exist, before it can be said that a reasonable hypothesis has been raised, connecting chilblains with the circumstances of eligible service rendered by a person, as set out in clause 5 of the Explanatory Statement;
 - replaces Instrument No. 29 of 2018; and
 - reflects developments in the available sound medical-scientific evidence concerning chilblains which have occurred since that earlier instrument was determined.
3. The Instrument is assessed as being a technical instrument which improves the medico-scientific quality of outcomes under the MRCA.

Human Rights Implications

4. This Legislative Instrument does not derogate from any human rights. It promotes the human rights of veterans, current and former Defence Force members as well as other persons such as their dependents, including:

- the right to social security (Art 9, *International Covenant on Economic, Social and Cultural Rights*; Art 26, *Convention on the Rights of the Child* and Art 28, *Convention on the Rights of Persons with Disabilities*) by helping to ensure that the qualifying conditions for the benefit are 'reasonable, proportionate and transparent'¹;
- the right to an adequate standard of living (Art 11, ICESCR; Art 27, CRC and Art 28, CRPD) by facilitating the assessment and determination of social security benefits;
- the right to the enjoyment of the highest attainable standard of physical and mental health (Art 12, ICESCR and Art 25, CRPD), by facilitating the assessment and determination of compensation and benefits in relation to the treatment and rehabilitation of veterans and Defence Force members;
- the rights of persons with disabilities by facilitating the determination of claims relating to treatment and rehabilitation (Art 26, CRPD); and
- ensuring that those rights "will be exercised without discrimination of any kind as to race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status" (Art 2, ICESCR).

Conclusion

This Legislative Instrument is compatible with human rights as it does not derogate from and promotes a number of human rights.

Repatriation Medical Authority

¹ In General Comment No. 19 (The right to social security), the Committee on Economic, Social and Cultural Rights said (at paragraph 24) this to be one of the elements of ensuring accessibility to social security.
