

Statement of Principles

concerning

ASCARIASIS

ICD CODE: 127.0

Veterans' Entitlements Act 1986
subsection 196B(2)

1. Being of the view that there is sound medical-scientific evidence that indicates that **ascariasis** and **death from ascariasis** can be related to operational service rendered by veterans, peacekeeping service rendered by members of Peacekeeping forces and hazardous service rendered by members of the Forces, the Repatriation Medical Authority determines, under subsection 196B(2) of the *Veterans' Entitlements Act 1986* (the Act), that the factors that must as a minimum exist before it can be said that a reasonable hypothesis has been raised connecting **ascariasis** or **death from ascariasis** with the circumstances of that service, are:
 - (a) being in an area described in column 2 of the Schedule before the clinical onset of ascariasis; or
 - (b) inability to obtain appropriate clinical management for ascariasis.
2. Subject to clause 3 (below) at least one of the factors set out in paragraphs **1(a) to 1(b)** must be related to any service rendered by a person.
3. The factor set out in paragraph **1(b)** applies only where:
 - (a) the person's **ascariasis** was contracted before a period, or part of a period, of service to which the factor is related; and

- (b) the relationship suggested between the **ascariasis** and the particular service of a person is a relationship set out in paragraph 8(1)(e), 9(1)(e), 70(5)(d), or 70(5A)(d) of the Act.

4. For the purposes of this Statement of Principles:

“ascariasis” means an intestinal nematode parasite infection caused by *Ascaris lumbricoides*, attracting ICD code 127.0;

“ICD code” means a number assigned to a particular kind of injury or disease in the tenth edition of the *International Classification of Diseases* 9th Revision, effective date of 1 October 1993, copyrighted by the US Commission on Professional and Hospital Activities, and having the Library of Congress number 77-94472;

“Asia” means the continental area bounded:

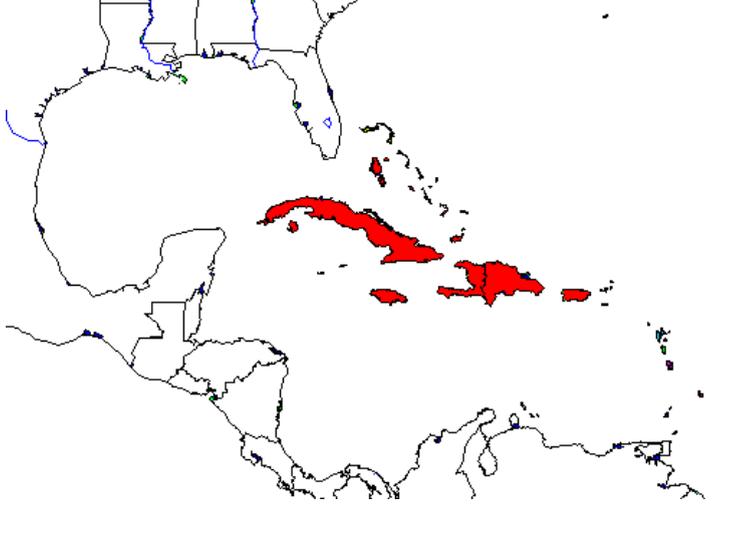

- (a) in the east by the Bering Straits and including the islands of Japan, the Philippines, Indonesia and Papua New Guinea and Sri Lanka and islands belonging to any of those countries; and
- (b) in the west, by a line running down the Ural Mountains from the Arctic Ocean to the Caspian Sea, across to the Black Sea, following the eastern shoreline of the Mediterranean, through the Suez Canal and down the Red sea to Aden;

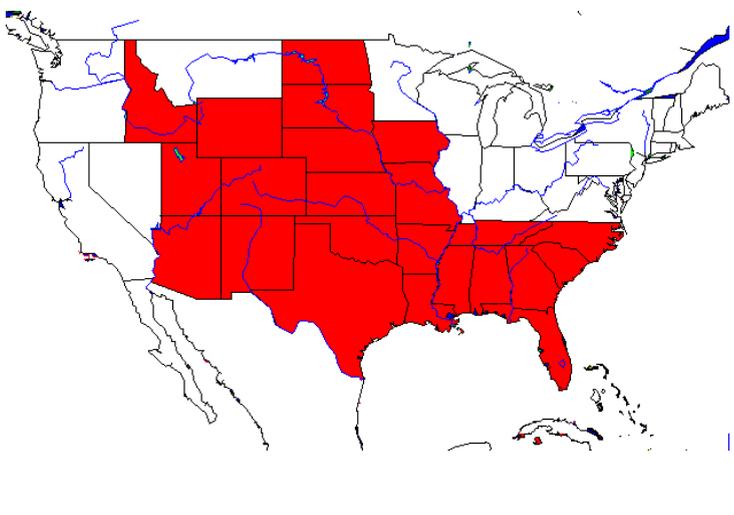

“Central and South America” means all that part of the Americas south of the USA/Mexico border;

“the Caribbean” means all that archipelago of islands, countries and nations within the Caribbean Sea or the Gulf of Mexico.

Schedule

column 1	column 2	column 3
1.	The continents of Africa and Asia.	 A world map showing the continents of Africa and Asia highlighted in red. The map includes country borders and is centered on the Indian Ocean.
2.	Central and South America.	 A world map showing the continents of Central and South America highlighted in red. The map includes country borders and is centered on the Atlantic Ocean.

3.	The Caribbean	
----	---------------	--

4.	<p>The states of Idaho, Wyoming, Colorado, Utah, Arizona, New Mexico, Texas, Oklahoma, Kansas, Nebraska, North Dakota, South Dakota, Iowa, Missouri, Arkansas, Mississippi, Alabama, Georgia, Florida, Louisiana, Tennessee, South Carolina and North Carolina in the United States of America.</p>	
----	---	---

Note: the shaded areas shown in the maps in column 3 indicate the areas described opposite in column 2.
