

Revocation
of
Statement of Principles
concerning
TENSION HEADACHE
and
Determination
of
Statement of Principles
concerning
TENSION-TYPE HEADACHE

ICD-10-AM CODE: G44.2

Veterans' Entitlements Act 1986

1. The Repatriation Medical Authority under subsection **196B(3)** of the *Veterans' Entitlements Act 1986* (the Act):
 - (a) revokes Instrument No.260 of 1995; and
 - (b) determines in its place the following Statement of Principles.

Kind of injury, disease or death

2. (a) This Statement of Principles is about **tension-type headache** and **death from tension-type headache**.
- (b) For the purposes of this Statement of Principles, **'tension-type headache'**, also known as muscle contraction headache or stress headache, means a condition in which there is headache occurring

on an average of at least five days per month over a period of at least six months, where the headache is pressing or tightening, is unaccompanied by nausea and is not aggravated by physical activity, attracting ICD-10-AM code G44.2. This definition excludes migraine and headache attributable to intracranial structural anomalies or systemic disease.

Basis for determining the factors

3. On the sound medical-scientific evidence available, the Repatriation Medical Authority is of the view that it is more probable than not that **tension-type headache and death from tension-type headache** can be related to relevant service rendered by veterans or members of the Forces.

Factors that must be related to service

4. Subject to clause 6, the factor set out in clause 5 must be related to any relevant service rendered by the person.

Factors

5. The factor that must exist before it can be said that, on the balance of probabilities, **tension-type headache** or **death from tension-type headache** is connected with the circumstances of a person's relevant service is:
 - (a) inability to obtain appropriate clinical management for tension-type headache.

Factors that apply only to material contribution or aggravation

6. Paragraph 5(a) applies only to material contribution to, or aggravation of, tension-type headache where the person's tension-type headache was suffered or contracted before or during (but not arising out of) the person's relevant service; paragraph 8(1)(e), 9(1)(e) or 70(5)(d) of the Act refers.

Inclusion of Statements of Principles

7. In this Statement of Principles if a relevant factor applies and that factor includes an injury or disease in respect of which there is a Statement of Principles then the factors in that last mentioned Statement of Principles apply in accordance with the terms of that Statement of Principles.

Other definitions

8. For the purposes of this Statement of Principles:

“**death from tension-type headache**” in relation to a person includes death from a terminal event or condition that was contributed to by the person’s tension-type headache;

“**ICD-10-AM code**” means a number assigned to a particular kind of injury or disease in The International Statistical Classification of Diseases and Related Health Problems, 10th revision, Australian Modification (ICD-10-AM), effective date of 1 July 1998, copyrighted by the National Centre for Classification in Health, Sydney, NSW, and having ISBN 1 86451 340 3;

“**relevant service**” means:

- (a) eligible war service (other than operational service); or
- (b) defence service (other than hazardous service);

“**terminal event**” means the proximate or ultimate cause of death and includes:

- a) pneumonia;
- b) respiratory failure;
- c) cardiac arrest;
- d) circulatory failure; or
- e) cessation of brain function.

Application

9. This Instrument applies to all matters to which section 120B of the Act applies.

Dated this *Twenty-eighth* day of *October* 1999

The Common Seal of the)
Repatriation Medical Authority)
was affixed to this instrument)
