

**Determination**  
of  
**Statement of Principles**  
concerning

**DERMATOMYOSITIS**

for the purposes of the

*Veterans' Entitlements Act 1986*  
and  
*Military Rehabilitation and Compensation Act 2004*

1. This Statement of Principles is determined by the Repatriation Medical Authority under subsection **196B(2)** of the *Veterans' Entitlements Act 1986* (the VEA).

**Kind of injury, disease or death**

2. (a) This Statement of Principles is about **dermatomyositis** and **death from dermatomyositis**.  
(b) For the purposes of this Statement of Principles, "**dermatomyositis**" means a chronic inflammatory disease of skeletal muscle characterised by progressive and often symmetric muscle weakness and occurring in association with, or following, characteristic inflammatory skin changes.

**Basis for determining the factors**

3. The Repatriation Medical Authority is of the view that there is sound medical-scientific evidence that indicates that **dermatomyositis** and **death from dermatomyositis** can be related to relevant service rendered by veterans, members of Peacekeeping Forces, or members of the Forces under the VEA, or members under the *Military Rehabilitation and Compensation Act 2004* (the MRCA).

### **Factors that must be related to service**

4. Subject to clause 6, at least one of the factors set out in clause 5 must be related to the relevant service rendered by the person.

### **Factors**

5. The factor that must as a minimum exist before it can be said that a reasonable hypothesis has been raised connecting **dermatomyositis** or **death from dermatomyositis** with the circumstances of a person's relevant service is:
  - (a) being treated with a drug of the statin class for a continuous period of five months immediately before the clinical onset of dermatomyositis; or
  - (b) being treated with D-penicillamine for a continuous period of three months immediately before the clinical onset of dermatomyositis; or
  - (c) being treated with hydroxyurea at the time of the clinical onset of dermatomyositis; or
  - (d) inability to obtain appropriate clinical management for dermatomyositis.

### **Factors that apply only to material contribution or aggravation**

6. Paragraph 5(d) applies only to material contribution to, or aggravation of, dermatomyositis where the person's dermatomyositis was suffered or contracted before or during (but not arising out of) the person's relevant service.

### **Inclusion of Statements of Principles**

7. In this Statement of Principles if a relevant factor applies and that factor includes an injury or disease in respect of which there is a Statement of Principles then the factors in that last mentioned Statement of Principles apply in accordance with the terms of that Statement of Principles.

### **Other definitions**

8. For the purposes of this Statement of Principles:

**“death from dermatomyositis”** in relation to a person includes death from a terminal event or condition that was contributed to by the person's dermatomyositis;

**“relevant service”** means:

- (a) operational service under the VEA; or
- (b) peacekeeping service under the VEA; or
- (c) hazardous service under the VEA; or
- (d) warlike service under the MRCA; or
- (e) non-warlike service under the MRCA;

**“terminal event”** means the proximate or ultimate cause of death and includes:

- (a) pneumonia;
- (b) respiratory failure;
- (c) cardiac arrest;
- (d) circulatory failure; or
- (f) cessation of brain function;

**Date of effect**

9. This Instrument takes effect from 13 April 2005.

Dated this *second* day of *April* 2005

The Common Seal of the )  
Repatriation Medical Authority )  
was affixed to this instrument )
